Material Transfer to Debut Integrated Systems at PACK EXPO 2023

Proven Leader in Material Handling Brings New Advantage to Packaging Customers

ALLEGAN, MI (Aug. 28, 2023) – Material Transfer, a leading material handling solutions provider with decades of packaging experience, is introducing integrated systems with auxiliary automation at this year’s PACK EXPO in Las Vegas on Sept. 11-13. **Packers and processors seeking an advantage in bulk material handling performance can visit the company at Booth N-10546 to explore the possibilities of optimizing their entire manufacturing footprint.**

“For over 30 years, our commitment has always been to provide customers with equipment, systems and services that improve process efficiency and maximize plant performance,” said Sergio Carrillo, director of sales & marketing. “We’re excited to offer these comprehensive solutions to packaging and processing leaders to help them realize the full potential of their material handling process.”

Material Transfer leverages an expanded network of industry partners specializing in auxiliary equipment including conveyors, hoppers, mixers and ducting, to ensure seamless integration with its best-in-class material handling equipment. Beyond auxiliary equipment partners, MTS has strengthened its network of representatives to provide greater customer service and support across the nation. Tapping into this growing network of expertise, MTS provides customers with support from system design to installation to ongoing technical maintenance and service.

Material Transfer’s team of experts will be available in Booth N-10546 to share more information on how customers can achieve results that surpass expectations. Visitors can discover the company’s collaborative approach to optimizing production floors with integrated systems that drive productivity and profitability in today’s competitive marketplace.

About PACK EXPO

Every two years, PACK EXPO Las Vegas brings together packaging and processing solutions suppliers and end users from 40+ vertical industries. Exhibitors launch products, showcase their latest innovations and problem-solve with customers. Attendees explore thousands of packaging and processing technologies on display and discover game-changing solutions to their packaging and processing challenges.
