Material Transfer Extends Rep Network with Partners for Process and Pneutech Engineering
Partnerships expand access to MTS' solutions in the northern Midwest region

ALLEGAN, MI (May 3, 2023) – Material Transfer (MTS), an industry leader in bulk material handling equipment and systems, announced today new partnerships with manufacturing rep groups, Partners for Process and Pneutech Engineering. The partnerships establish local representation in the northern Midwest region to provide customers with greater access to Material Transfer's equipment, systems and services.

Partners for Process will supply customers in the Minnesota and Wisconsin markets, while Pneutech Engineering serves customers in Northern Illinois and East Iowa. Both channel partners bring over 30 years' experience in engineered solutions for industries including chemical, food, pharmaceutical, plastics and more.

"We are excited to announce these new partnerships that will provide customers in the Midwest with greater access to our high-performing equipment and systems," said Sergio Carrillo, director of sales and marketing. "Partners for Process and Pneutech Engineering will represent Material Transfer in these growing markets – helping address customers' unique needs, while providing the high-quality service and responsiveness we're known for."

As an industry leader in bulk material handling equipment and systems, MTS provides custom solutions designed to improve process efficiency, ensure greater control and enhance employee safety across a variety of industries and applications.
